

Facilities & Services

1960 Eglinton Ave. East | Toronto, ON | M1L 4N4

April 1, 2010

To whom it may concern,

Centennial College and Servcon have worked together since June 2005.

The first project awarded to Servcon was the replacement of an existing front entrance patio of at 930 Warden Avenue /Ashtonbee campus with new interlocking paver. They not only met the timelines and scope of this project they exceeded the expectations. Centennial was extremely happy to award a second contract to Servcon for the Morningside campus project that required a modular interlocking block for a retaining wall that is still in great shape. Due to Servcon's excellent work ethic, Centennial continued to reward various projects over the next 4 to 5 years.

Servcon responds to requests regardless of size of the projects, which is a tremendous help. They communicate clearly for the duration of the project. They manage their scope of work, it is always clean, prompt to completion, which allows the PM the opportunity to concentrate and work on other projects. We strongly recommend Servcon without reservation.

If you wish to further discuss other details do not hesitate to call me at 416-289-5000 ext 7532 or email at ftagsa@centennialcollege.ca

Sincerely,

Fidelis Tagsa

Architectural Service Coordinator
