

Thursday February 23, 2010

This letter is to confirm that Servcon was an exemplary provider of snow removal & grounds maintenance services at Ontario Government buildings from October 2008 to October 2010. Service levels were at a very low point when Servcon took over the portfolio stretching from Newmarket to Oshawa & within 30 days the improvement was noticed by site staff & building occupants. The sites involved included such high profile facilities as the Newmarket Court House, Aurora OPP station & MTO/MNR location at 50 & 100 Bloomington.

In summary, I would highly recommend contracting Servcon for all grounds maintenance services as they delivered superior service to our portfolio at fair market prices.
